## TO OUR CUSTOMERS

WE LIST 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seed is grown especially for us by the most reliable growers in various parts of the United States, so that it may be produced in the section that is best suited for the variety. For example, our Lima Bean seed is grown in California, Beans in Idaho, Cantaloupe in Colorado, Corn in Connecticut, Spinach and Turnip in the State of Washington, Peas in Wyoming, Onion Sets in Illinois, etc. Contracts are placed twelve to eighteen months before the seed is to be delivered or before the grower plants the seed stock. This is done to secure only fresh and highest-quality seeds for our customers.

We have a self-service seed department. All of the leading varieties of seeds will be packed in packets, ounces,  $\frac{1}{4}$  pounds,  $\frac{1}{2}$  pounds and pounds.  $\frac{1}{2}$  pounds and pounds will be packed in transparent polyethylene bags. This self-service department is in addition to our counter service. This enables us to give faster and better service.

Fifty-five years' experience as seedsmen and commercial growers has taught us that only the best strains are worth while. We endeavor at all times to secure the highest-quality seeds obtainable and to offer them at minimum prices. All seed is carefully tested and none is allowed to be sold that we know to be poor in germination or in any way inferior.

Our store is located at the corner of Atlantic and Center Avenues opposite the Penna.-Reading Railroad Station at Sewell N. J., twelve miles south of Camden. We welcome customers and friends to our store and shall be glad to show our seeds and plants.

## TERMS

**Seeds and Supplies:** Cash with order, otherwise shipment will be made C. O. D. Remittance can be made by Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants and

bulbs pure and reliable, we give no warranty express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalog are subject to change without notice.

**OROL LEDDEN & SONS**

**SAFE DELIVERY GUARANTEED.** All seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign and mail to us at once, and more seeds will be forwarded or money refunded.

# Ledden's ANNUAL and PERENNIAL Flower Seeds

## NEW INTRODUCTIONS

Three illustrated on back cover

**ALYSSUM, Pink Heather.** All-America Winner for 1959. Light pink, deeper in cool weather and quite light in hot dry weather of midsummer. It has the plant and blooming habit of Violet Queen and Little Gem. About 6 inches tall, with good spread of bloom until late September. In tests it varied to a soft lavender-pink, because of weather conditions. Easily grown. Good for edging and bedding, rock-gardens and pot plants. Pkg. 40 cts.

**PETUNIA, Scarlet Lustre.** An F1 hybrid Grandiflora. Brilliant scarlet with golden throat. Vigorous and prolific. Pkg. 50 cts.

**SNAPDRAGON, Mardi Gras.** An F1 hybrid combining the advantages of earliness, hybrid vigor and a wide color range. In a good-sized planting it is possible to count at least 20 colors and color combinations. For outdoor bedding and border planting. Pkg. 25 cts.;  $\frac{1}{4}$ oz. \$1.00; oz. \$3.00.

**PETUNIA, Confetti Mixed.** The goal in this mixture was to attain only clear, sharp colors. The result is a very gay color series, ideal for bedding and borders. The strong plants are of the Nana Compacta type, 12 to 16 inches tall; they bear very freely. Pkg. 25 cts.;  $\frac{1}{4}$ oz. \$2.50. (Not illustrated.)

**AFRICAN DAISY, Mixed Colors** (*Dimorphotheca*). Daisy-like flowers about  $3\frac{1}{2}$  inches across, in a wide range of colors. Used for Pkg.  $\frac{1}{4}$ oz. Oz. cutting, edging and rock-gardens. .... \$0 10 \$0 60 \$1 75

**AGERATUM, Blue Perfection.** An annual with large heads of deep blue flowers on 1-foot plants. .... 10 50 1 50

**Blue Wonder.** Very dwarf strain of the finest compact type. Large flowers 4 to 5 inches above the ground. Splendid for borders, edging and pots. .... 10 75 2 25

# LEDDEN & SONS' Vegetable Plants

We have discontinued the shipping of all Vegetable and Flower Plants except Sweet Potato and Yam Plants and Asparagus Roots. This is due in large part to the high cost of shipping by parcel post and railway express.

We have also discontinued the growing of Tomato and Cabbage Plants in large quantities. We will, however, grow sufficient plants to supply our many customers who call at our store for a thousand or so and smaller quantities.

We will continue to grow Pepper, Eggplant, Sweet Potato, Yam, Lettuce, Beet and other vegetable plants in the usual way.

## ASPARAGUS ROOTS *Plant March to April*

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family; 5,000 roots to an acre in 4-foot rows.

## LEDDEN'S LAWN GRASS MIXTURES One pound sows 250 square feet

**Evergreen Lawn Grass.** This is our own mixture in which we use only reseeded high-grade permanent grasses and White Dutch Clover. Only the best fine-leaved grass varieties are used in this mixture to make an even thick mass of sod giving a smooth velvet lawn. Analysis: Kentucky Blue Grass 75%, Redtop 10%, Colonial Bent Grass 10%, White Dutch Clover 5%. Lb. 98 cts.; 5 lbs. \$4.75; 10 lbs. \$8.95; 25 lbs. \$19.95.

**Ledden's Sunny Lawn Grass Mixture.** Specially blended for sunny areas. This mixture meets the basic requirements of the sunny lawn grass seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Kentucky Blue Grass 20%, Perennial Rye Grass 15%, Creeping Red Fescue 15%, Redtop 10%, Colonial Bent Grass 10%, Pennlawn Fescue 25% and White Dutch Clover 5%. Lb. 89 cts.; 5 lbs. \$4.25; 10 lbs. \$7.95; 25 lbs. \$18.75.

**Ledden's Formula No. 1** (with Clover). Mixed according to the specifications of the New Jersey Agricultural Experiment Station. A very fine lawn grass mixture using only the best grasses and White Dutch Clover. Analysis: Kentucky Blue Grass 55%; Redtop 15%; Colonial Bent Grass 10%; Perennial Rye Grass 15%; White Dutch Clover 5%. Lb. 95 cts.; 5 lbs. \$4.49; 10 lbs. \$8.25; 25 lbs. \$18.95.

We use the purest seed obtainable and of the highest germination; however, because each variety of grass seed has a very small content of inert matter, mostly in the form of seed hulls, there will be a slight variation of content from the above analyses. The analysis given on the grass seed bag will, therefore, read slightly different from the analysis stated above. However, the basic mixtures as described above will be the same.

**Merion Blue Grass Mixture.** This mixture is especially recommended by the Merion Blue Grass Growers Association as a high-grade Merion Blue Mixture. Analysis: Merion Blue Grass 40%; Pennlawn Fescue 50%, Highland Bent Grass 10%. Lb. \$1.60; 5 lbs. \$7.75; 10 lbs. \$14.75; 25 lbs. \$35.00.

**Shady Lawn Grass Mixture.** A specially prepared mixture for under shade trees or in shade corners. It meets the basic requirements of the shady lawn grass seed recommendations of the New Jersey Agricultural Experiment Station of Rutgers University. Analysis: Poa trivialis 35%, Creeping Red Fescue 30%, Perennial Rye Grass 15%, Redtop 10%, Colonial Bent Grass 10%. Lb. 85 cts.; 5 lbs. \$3.95; 10 lbs. \$7.50; 25 lbs. \$17.95.

**Vacant Lot Lawn Grass.** Our own mixture, composed entirely of perennial grasses with wider blades. Often Perennial Rye Grass and Timothy will stand where other grasses fail. Analysis: Perennial Rye Grass 50%, Kentucky 31 Fescue 30%, Timothy 20%. Lb. 45 cts.; 5 lbs. \$1.98; 10 lbs. \$3.50; 25 lbs. \$7.95.

**Ledden's Lawn Mixture for Dry, Infertile Soils.** This mixture meets the basic requirements of the dry, infertile soils lawn seed recommendations of the New Jersey Agricultural Experiment Station. Analysis: Creeping Red Fescue 35%, Common Rye Grass 15%, Redtop 5%, White Dutch Clover 5%, Alta Fescue 15%, Cheving's Fescue 25%. Lb. 75 cts.; 5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.75.

**Colonial Lawn Seed Mixture.** Analysis: Perennial Rye Grass 25%, Kentucky 31 Fescue 35%, Timothy 15%, Domestic Rye Grass 25%, Creeping Red Fescue 10%. 5 lbs. \$1.59; 25 lbs. \$7.49.

We will mix any lawn grass mixture of grass and clover seed to the customers' specifications.
